*This is our quality.*

## This is what you get when you choose Kaufmann Comfort Tite™ Vinyl.

- Never needs painting.
- Doesn't show nicks and scratches.
- Guaranteed for a lifetime not to rot, peel, blister, corrode or rust.
- Available in white, almond or earthbrown.
- Also with light oak or dark oak interior.

*(Actual color may not match illustrations)*

*Edgetech Super Spacer is standard with every Kaufmann Comfort Tite™ Vinyl Window.*

Super Spacer — a silicone foam spacer that provides the warmest edged glass in the industry. Warm edged glass is the dominant factor in controlling annoying moisture condensation.

### *Buy it with Low E glass*

Low E glass combined with inert argon gas will double the insulating value of your door.

*Remember*-the larger the opening, the more you need Low E.

## Classic Comfort Series 1580

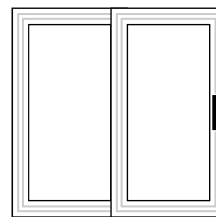

With its large area, an inefficient patio door can be the home's greatest source of heating and air conditioning loss. The vinyl sliding patio door is the answer to this problem.

- Multi-chambered frame with double weatherstripping provides strength, energy efficiency and maximum air tightness.
- Fusion welded corners and steel reinforced sash add even greater strength.
- Sash beading that resembles the millwork look of traditional wood.
- Super strong, thermally superior fiberglass pultruded sill.
- This same sill features a low-rise design which minimizes tripping, yet keeps water out.
- Engineered for easy operation, each sash utilizes two heavy duty tandem axle rollers.
- Heavy duty, easy rolling, no-jump screen includes adjustable rollers in each corner that guide the screen for smooth opening and closing.
- Double weatherstripped, interlocking sashes prevent air and water leakage, as well as providing resistance to forced entry.
- Options include a beautiful brass handle with a key lock and positive locking limit lock for greater security.
- Glazing options include Low E glass, tinted glass, muntin grids and triple glazing.
